DETAILED ACTION

Allowable Subject Matter

1. Claims 4-25 are allowed.
2. The following is an examiner's statement of reasons for allowance:

The prior art of record neither discloses nor teaches a liquid crystal display device comprising various elements as claimed, more specifically, as the following:

the side walls of the first frame are vertically formed at side peripheral portions of the bottom surface except for one side peripheral portion of the bottom surface, and a supporting member of the first frame installed at the side peripheral portion of the bottom surface in which the side wall is not formed as shown in Fig.3 [claim 4];

the side walls of the first frame vertically formed at all side peripheral portions of the bottom surface except for one side peripheral portion of the bottom surface where the side wall is not formed, and the second frame being detachably coupled with the first frame, such that the extremities of the second frame are within the periphery of the outer portions of the first frame as shown in Fig.3 [claim 10].

The closest reference Susumu discloses a structure of a liquid crystal comprising two frames, one frame for holding optical sheets such as LCD display panel, light guide plate and light focusing lens, another frame for holding the light source, so that the light source can be detachable. However, the structure is different from this application in which the light source holding frame (second frame) is detachably coupled with the optical sheets holding frame (first frame) using one side of the first frame where no side wall in this side of the first frame.

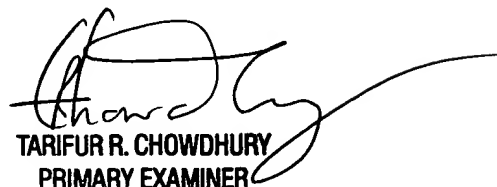

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

3. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Mike Qi whose telephone number is (571) 272-2299. The examiner can normally be reached on M-T 8:00 am-5:00 pm.
